

Date	Speaker	Subject	Details
<b>2024</b>			
			<a href="#">Abstract</a>
10.07.2024			<a href="#">Abstract</a>
12.06.2024			<a href="#">Abstract</a>
08.05.2024			<a href="#">Abstract</a>
10.04.2024	Ahmed Alghuraybi, Imperial College London	Prediction of fault zone properties at the subsurface (working title)	<a href="#">Abstract</a>
13.03.2024	Calum Macfie, EcoAct	Climate change: Antarctic bivalve resilience over the Cretaceous-Paleogene extinction	<a href="#">Abstract</a>
14.02.2024	Dr Lorna Anguilano, Brunel University	Lorna's Seeds – soil regeneration and urban mining project	<a href="#">Abstract</a>
10.01.2024	Dr Sinead Lyster, Pennsylvania State Uni	Fluvial Landscape Reconstruction from the Sedimentary Record	<a href="#">Abstract</a>
<b>2023</b>			
13.12.2023	Prof Jon Noad (Stantec Consulting) University of Adelaide	Fauna of the Cretaceous Upper Chalk: featuring the fossils of Harefield	<a href="#">Abstract</a>
08.11.2023	Prof Philip Gibbard, Cambridge University	The Thames through Uxbridge	<a href="#">Abstract</a>
11.10.2023	Dr Naomi Foster, Geopark Geologist	The Geology of the North Pennines UNESCO Global Geopark	<a href="#">Abstract</a>
13.09.2023	Prof Malcolm Hart, University of Plymouth	Celebration of the geodiversity of the English Riviera UNESCO Global Geopark	<a href="#">Abstract</a>
12.07.2023	Graham Worton, Geopark Geologist	The Geology of the Black Country UNESCO Global Geopark	<a href="#">Abstract</a>
14.06.2023	Alan Bowring, Geopark Geologist	Holes in the Hills; cirques, sink holes and quarries in Fforest Fawr Geopark	<a href="#">Abstract</a>
10.05.2023	Dr David Brook OBE, President, HHGS	Jurassic dolerites in the Theron Mountains, Antarctica	<a href="#">Abstract</a>
12.04.2023	Pete Harrison, Geopark Geologist	The Geology of the Northwest Highlands UNESCO Global Geopark	<a href="#">Abstract</a>
08.03.2023	Dr Kevin Wong, University of Bologna	Volcanoes where the Earth rips apart: basaltic processes in the Ethiopian Rift	<a href="#">Abstract</a>
06.02.2023	Douwe van der Meer (HHGS).	Earth's changing temperature and sea level over the past 540 million years leading to novel insights for sequence-stratigraphy	<a href="#">Abstract</a>
11.01.2023	Guy Fiegehen (Chair)	Introducing our Golden Anniversary programme	
<b>2022</b>			
14.12.2022	Prof Danielle Schreve, Royal Holloway UoL	Move, adapt or die: Ice Age mammals from SW Britain	<a href="#">Abstract</a>
09.11.2022	Jon Noad, Stantec Consulting; University of	Almost like being there: new approaches to deciphering animal	<a href="#">Abstract</a>

	Adelaide	behaviour from trace fossils	
12.10.2022	Robert Maurer (HHGS)	The Rotating Earth and Plate Tectonics	<a href="#">Abstract</a>
14.09.2022	Discussion Meeting with Prof David Bridgland	Stanmore Gravel at Harrow Weald Common SSSI	<a href="#">Project</a>
10.08.2022	Led by Allan Wheeler (HHGS)	Harrow Building Stones Walk	<a href="#">Details</a>
13.07.2022	Dr Peter Allen	The Pleistocene Thames / Trip to Dowding Park, Uxbridge	<a href="#">Abstract</a>
08.06.2022	Dr Phil Collins (Brunel University)	Floods - past, present and future / Trip to Headstone Manor Flood Alleviation Scheme	<a href="#">Headstone Manor FAS</a>
11.05.2022	AGM / members evening	Past Field Trips based on our Holiday Geology displays	<a href="#">Holiday Geology</a>
13.04.2022	Diana Clements, London Geodiversity Partnership	The Importance of London Geodiversity Partnership sites around Harrow and Hillingdon	<a href="#">Abstract</a>
09.03.2022	Haydon Bailey, Geological Advisor to the Chiltern Society	The Geology of the Chiltern Chalk and the impact of HS2	<a href="#">Abstract</a>
09.02.2022	Introduced by Allan Wheeler (HHGS)	The Geology of Ruislip Woods	<a href="#">Abstract</a>
12.01.2022	Mark Howson, Bristol University	The North Somerset Mountains	<a href="#">Abstract</a>
<b>2021</b>			
08.12.2021	Professor Francis Wall Camborne School of Mines, Univ Exeter	Responsible sourcing of raw materials – at home and abroad	<a href="#">Abstract</a>
10.11.2021	Jane Tubb East Herts Geology Club	Microbes to Marrows, the evolution of plants and flowers	<a href="#">Abstract</a>
13.10.2021	Dr Ilias Karapanos Affinity Water	Developments in Understanding the flow mechanisms in the Chalk and the groundwater-surface water interactions	<a href="#">Abstract</a>
08.09.2021	Matthew Staitis University of Edinburgh	Investigating Deccan-induced environmental changes, prior to the K/Pg mass extinction	<a href="#">Abstract</a>
11.08.2021	Members evening	Geological walk around Pinner	
14.07.2021	Humphrey Knight CRU Group	Salt from the frozen wastes: An introduction to the global potash industry	<a href="#">Abstract</a>
09.06.2021	Bruce Rimmer, AGS Amateur Geological Society	Platinum Group Metals - their Geological Occurrence, Extraction and Applications	<a href="#">Abstract</a>
12.05.2021	Allan Wheeler (HHGS)	AGM / The Canary Islands with especial emphasis on Tenerife	<b>Abstract</b>
14.04.2021	Professor Jim Rose, Royal Holloway UoL	Quaternary Rivers and Glaciers in Midland and Eastern England – conflicting views and observable evidence.	<a href="#">Abstract</a>
10.03.2021	Dr Jonathan Paul, Royal Holloway UoL	The effects of stratigraphy on the London Underground.	<a href="#">Abstract</a>
10.02.2021	Dr Alastair Curry Univ. Hertfordshire	Secrets from the Lady of the Lake: structure, sedimentology and	<a href="#">Abstract</a>

		evolution of rockfall talus slopes in the Brecon Beacons, Wales.	
13.01.2021	Dr Stephen Hicks Imperial College London	The Surrey Earthquake Swarm	<a href="#">Abstract</a>
<b>2020</b>			
09.12.2020	Dr Adelene Buckland (Kings College London)	Charles Lyell: Father of Geology and Aspiring Poet	
11.11.2020	Joan Waters (HHGS)	The Auvergne	
14.10.2020	Sheppy Shepherd (Chair)	Mineral Identification	
09.09.2020	Joan Waters (HHGS)	Santorini	
12.08.2020	Sheppy Shepherd (Chair)	Volcanoes	
08.07.2020	Jackie Gill (HHGS)	Members Quiz Night	
10.06.2020	Sheppy Shepherd (Chair)	History of Geology	
27.05.2020	Sheppy Shepherd (Chair)	AGM / HHGS field trips	
08.04.2020	Cancelled - Covid		
11.03.2020	Dr Robin Hansen (NHM)	Colours of the Natural History Museum's Gem Collection	<a href="#">Abstract</a>
12/02/2020	Prof. David Norbury (Consultant Engineering Geologist)	Triumphs and Disasters in Engineering Geology	<b>Abstract</b>
08/01/2020	Dr Sandy Hetherington (Oxford)	Getting to the root of roots	<b>About Abstract</b>
<b>2019</b>			
11/12/2019	Bob Maurer (HHGS)	A new look at the forces responsible for Plate Tectonics	<b>Abstract</b>
13/11/2019	Dr Simon Drake (Birkbeck)	Discovery of a Paleocene meteoritic ejecta blanket on the Isle of Skye N W Scotland	<b>Abstract</b>
09/10/2019	Dr Jonathan Turner (NDA)	Geological disposal of radioactive waste in the UK	<a href="#">Blog</a> <b>Abstract</b>
11/09/2019	Mike Rumsey (NHM)	Enigmatic Minerals of the UK	<b>Abstract</b>
21/08/2019	Members Evening	Treasure Hunt around Northwood	
10/07/2019	Dr Tom Booth	Cheddar Man	<a href="#">Abstract</a>
12/06/2019	Dr Lucia Perez-Diaz (Oxford)	The ups and downs of the South Atlantic ocean -	<a href="#">Abstract</a>
08/05/2019	AGM - followed by	DVD about the History of Blue John	
10/04/2019	Dr Jack Wright (Open Univ.)	Planet Mercury: An Update from the Problem Child of the Solar System	<a href="#">Abstract</a>
13/03/2019	Nick Fay	Trilobites, and their stony stare	<b>Abstract</b>
13/02/2019	DVD	The Sahara	<b>Abstract</b>
09/01/2019	Dr Zoe Mildon (Plymouth)	Earthquakes and active faults in central Italy	<a href="#">Abstract</a>
<b>2018</b>			
12/12/2018	Dr Jackie Skipper Geotechnical Consulting Group	The Ruislip Bed and other stories - why the Lambeth Group is so interesting	
14/11/2018	Dr Douwe van der Meer	Atlas of the Underworld: frontier exploration of the mantle to constrain	<a href="#">Abstract</a>

		palaeogeography & biogeography	
10/10/2018	Lorraine Cornish (NHM)	Dippy and the Whale	<a href="#"><u>Abstract</u></a>
12/09/2018	Sarah Brazier Etches Collection, Kimmeridge	A Plethora of Plesiosaurs - Life in the Jurassic Sea -	<a href="#"><u>Introduction</u></a>
08/08/2018	Members Evening	Quiz Walk around Eastcote	
11/07/2018	Mike Howgate	A Sceptical Look at the Dino-bird Controversy	<a href="#"><u>Abstract</u></a>
13/06/2018	Prof. Heather Viles	The Earth's surface in the Anthropocene	
09/05/2018	AGM - followed by	DVD about a Polish salt mine	
11/04/2018	Joan Waters	The Thera of Everything - Santorini	
14/03/2018	Prof. David Pyle (Oxford)	Volcanoes: past, present and future	<a href="#"><u>Introduction</u></a>
14/02/2018	Prof. Robert Hall (Royal Holloway)	Australia-SE Asia collision, the Wallace Line and Wallacea	<a href="#"><u>Abstract</u></a> <a href="#"><u>Poster</u></a>
10/01/2018	Sarah Day (Geological Society)	Dinosaurs, monsters and myths: The challenges and opportunities of communicating Earth science	<a href="#"><u>Abstract</u></a>

<b>2017</b>			
13/12/17	Dr Haydon Bailey	Holostratigraphy of the Chalk of the North Sea	<a href="#"><u>Abstract</u></a>
08/11/17	Adrian Rundle	Microfossils	
11/10/17	Prof. Giles Harrison (Reading)	Two hundred years since the "year without a summer" – global atmospheric effects of the Mount Tambora eruption	<a href="#"><u>Abstract</u></a>
13/09/17	Dr Paul Taylor (NHM)	A brief history of life in 10 fossils	
23/08/17	Members Evening	Historical Walk around Ruislip	
12/07/17	John Horsley	Geological Curiosities of Portugal -	
14/06/17	Dr Susannah Maidment (Brighton Uni)	Latitudinal biodiversity gradients in deep time: a case study using dinosaurs of the Upper Jurassic Morrison Formation, western USA	
10/05/17	AGM followed by	Film about the Troodos Geopark	
12/04/17	Prof. Chris Rhodes (Fresh-Lands Environmental Actions)	What Do We Do When the Oil Runs Out?	
08/03/17	Dr Matt Balme (Open Uni)	Water on Mars	
08/02/17	Dr David Brook OBE	Geological hazards and disasters	
11/01/17	Natasha Almeida (NHM)	Adding another dimension: the use of micro-computed tomography in the study of extraterrestrial material	
<b>2016</b>			
14/12/16	Poppy Harding UCL	Siberian Ecosystem Responses to Abrupt Climate Change. Lessons from Lake Records Over the Late Quaternary	
09/11/16	Humphrey Knight (CRU International.)	Antimony: critical metal mineral deposits in South West England	
12/10/16	Dr Penny Wozniakiewicz (Kent Univ)	Studying Planetary impacts in the laboratory	
14/09/16	Dr Bryon Tabor	The textures of peridotite rocks of	

		sub-continental mantle origin	
10/08/16	Members Evening	Historical Walk around Uxbridge.	
13/07/16	Lesley Dunlop (Northumbria Univ.)	Chromite, tungsten and iron: Mineral deposits and mines in Portugal	
08/06/16	William Joyce (Birkbeck)	The Geology of the Moon	●
11/05/16	AGM + Talk by Sheppy	Limestone	●
13/04/16	John Henry	The Beginning of Geological Mapping in England	●
09/03/16	Prof Chris Jackson (Imperial)	Salt of the Earth	●
05/03/16	Spring Social	Ickenham Village Hall	
10/02/16	Dr Clive Edmonds (Peter Brett Associates)	Geology of the HS2 route in the Chilterns and geoconservation concerns	●
13/01/16	Dr Rebecca Bell (Imperial)	Did the earth move for you? From great earthquakes to silent slip	●

## 2015

09/12/15	Prof. Rory Mortimore	South Georgia to the South Downs	
11/11/15	Graham Marett (SWHAS)	The Origin of the Elements	●
14/10/15	Robert Maurer	Our Heritage - Stone Tools and Rock Art	●
09/09/15	Penelope Wilson (Kingston Univ.)	The intrusion 'space problem': a comparative case study of accommodation and deformation structures associated with the emplacement of the Maiden Creek and Trachyte Mesa intrusions, Henry Mountains, Utah	●
12/08/15	Members Evening	Walking through historic Pinner.	
08/07/15	Bill George	Volcanoes, tropical seas, glaciers and giants - the geology of the Essex coast	●
10/06/15	Dr Philip Collins (Brunel)	That sinking feeling: geology, people and subsidence	●
13/05/15	AGM followed by	Film about Parys Mountain, Anglesey	
08/04/15	Bernard J Skillerne de Bristowe	A journey through the centre of a mountain	●
11/03/15	Dr Chris Brierley (UCL)	Using past warm climates to inform us about our future world	●
11/02/15	Prof Chris Stringer (NHM)	The Origin of our Species	●
14/01/15	Prof. Gina Barnes (SOAS)	JADE its tectonic formation, geochemistry & archaeology in East Asia	●

## 2014

10/12/14	Dr Mark Sutton (Imperial)	Virtual Palaeontology	●
12/11/14	Dr David Brook	Limestone mining in the Black Country - an industrial legacy	
08/10/14	John Stanley	What are Komatiites	●
10/09/14	Dr Giles Miller (NHM)	Searching for early fish in the Ordovician of Oman	
13/08/14	Harrow	DIY Building Stones Walk	

09/07/14	Dr Alex Dickson Oxford University	Global warming events in Earth's history	
11/06/14	Prof. Heather Viles (OUCE)	Rock breakdown in extreme environments: from Namibia to Mars	
14/05/14	AGM + Sheppy	Meteorites	
09/04/14	Dr Renske Gelderloos	Arctic Ocean Research	
12/03/14	Stephen Myers	The Walbrook, the City of London's River – Its Rise and Fall	
12/02/14	Adam Pacey	What controls where volcanoes form? Insights from Indonesia	
08/01/14	Dr Doug Robinson (Bristol Univ)	Naxos – geological evolution of a gneiss dome	

2013			
11/12/13	Dr Tony Grindrod	Energy for the Future	●
13/11/13	Mike Rumsey (NHM)	New materials from nature: Finding new mineral species and the science behind discovery	
09/10/13	Paul Logan (Heritage Oil)	Kebabs, Carbonates and Baggy Trousers; Adventures of a Geologist in Kurdistan	●
11/09/13	Dr Michael Doel	Mineral Fluorescence	
14/08/13	Members Evening	Treasure Hunt in Ickenham.	
10/07/13	Prof Tony Watts (Oxford University)	Mountains in the Sea	●
12/06/13	Prof Gina Barnes (SOAS Uni of London)	Tectonic archaeology in Japan	●
08/05/13	AGM + Film	Williamson Tunnels	
10/04/13	Dr Peter Grindrod (UCL)	Exploring Mars: Curiosity, Water and Life	●
13/03/13	Dr Dewi Lewis (UCL)	Zeolites: from Tutankhamen to Mars in an hour	●
13/02/13	Dr Clare Warren (OU)	Up the Down Escalator: formation and exhumation of high pressure rocks	●
09/01/13	Dr Adrian Rundle (NHM)	Unusual microfossils	●
2012			
12/12/12	Graham Marrett	The Big Bang and the Expanding Universe	●
14/11/12	Dr Michele Paulatto (Oxford University)	CAT scan of an active volcano: Three dimensional seismic tomography at Montserrat	●
10/10/12	Anton Kearsley (NHM)	How comets threaten satellites	●
12/09/12	Dr David Brook OBE	The Story of China Clay	●
08/08/12	Members evening	Walk around Horsenden Hill	
11/07/12	Dr Brian Marker OBE	Minerals and the countryside	●
13/06/12	Prof. Danielle Schreve (Royal Holloway)	Wolves and wildcats: surviving the end of the last Ice Age in Somerset	●
09/05/12	AGM followed by Sheppy	There's more to sand than you might think	●
11/04/12	Dr Chris Carlon	The Geology of the High Atacama, Northern Chile	●
14/03/12	Leila Battison (Oxford University)	Not just Sticks and Balls: A New Perspective on the Origin of Life on Land (a talk about the finding of fossil eukaryotic cells at Loch Torridon)	●
08/02/12	Dr Jackie Skipper (Geotechnical Consulting Group)	The Thames Tideway Project – or how to unpollute the Thames (again!)	●
11/01/12	Di Clements	The Geology of London	●

2011			
14/12/2011	Roger Lloyd	The Karst region of Yangshou, China	●
09/11/2011	Dr Tina van de Fliertd (Imperial)	Reconstructing the history of the Antarctic ice sheet. Clues from the past for the future	●
12/10/2011	John Stanley	Orcadian Basin then and now	●
	Glyn Hatherall	Assynt and the Moine Thrust	●
14/09/2011	Dr Kieren Howard (NHM)	Impact Cratering and Ejecta Deposits: Investigations in the Australian tektite strewn field and new insights from Darwin crater	●
10/08/2011	Treasure Hunt	Pinner - A great time was had by all.	
13/07/2011	Dr Simon Boxall, National Oceanographic Centre, (Southampton Univ.)	Cape Farewell - science, art and music in the high Arctic	●
08/06/2011	Jane Tubb (East Herts Geol Soc)	'Hertfordshire Puddingstone - some facts, some theories and some unanswered questions'	●
11/05/2011	AGM + Bob Maurer	Did climatic changes in Europe give rise to the Rock Carvings in North Africa ?	●
13/04/2011	Revd Dr Timothy Astin (Reading Univ)	Application of Geophysics to Archaeology (investigation of Hebridean islands)	●
09/03/2011	Rob Sage (Veolia Water)	The Hydrogeology of Hertfordshire	●
09/02/2011	Dr Haydon Bayley	Caring for the Chilterns – the role of the Geological Advisor	●
12/01/2011	Mike Cuming	La Brea Tar Pit Museum	●
	Bryan Tabor	The Ochres of Roussillon and the Canyon of Verdon	●
14/12/2011	Roger Lloyd	The Karst region of Yangshou, China	●
09/11/2011	Dr Tina van de Fliertd (Imperial)	Reconstructing the history of the Antarctic ice sheet. Clues from the past for the future	●
2010			
08/12/2010	Prof Mark Sephton (Imperial)	Organic matter, meteorites and life in the Solar System	
10/11/2010	Dr Bernard J Skillerne de Bristowe	An Introduction to the Geology of Assynt	●
13/10/2010	Dr David Brook	Tsunami: The Wave that Swallows People	●
08/09/2010	Ted Wheeler	The Evolution of Whales	●
11/08/2010	Treasure Hunt	Harrow on the Hill	
14/07/2010	Dr Tim Ewin (NHM)	Scelidosaurus, the Dorset Dinosaur'	●
09/06/2010	Prof. Andrew Fleet NHM	Diamonds through time	●
12/05/2010	AGM + Jo Crocker	Glaciers and the Icesheet in Chile and Argentina	
14/04/2010	Dr David Brook	Aspects of Gypsum	●
10/03/2010	Dr Jenny Collier (Imperial)	Catastrophic Flooding: How Britain Became an Island	●
10/02/2010	Dr Philip Collins, Brunel	Earthquakes or ice? What do deformed Quaternary sediments	

		really mean (and does it matter)?	
13/01/2010		Cancelled due to bad weather	
<b>2009</b>			
09/12/2009	Dr Reimar Seltmann (Head of CERCAMS at NHM)	Giant Cu-Au deposits of Central Asia	
11/11/2009	Prof Heather Viles (OUCE)	Rapid, catastrophic weathering of limestones within the historic walls of Oxford <b>(field trip)</b>	
14/10/2009	Steve Hiron (Birkbeck)	From mud wrestling to metamorphism	
09/09/2009	David Brook	The Slippery Slopes - Landslides.	●
12/08/2009	Ken Kirkman	Conducted tour around the surface of Pinner chalk Mine	
08/07/2009	Dr David Smith (Brunel)	Chandrayaan-1: Mineralogical Mapping of the Lunar Surface	
10/06/2009	Charlie Underwood (Birkbeck)	A geological traverse across eastern Morocco	●
13/05/2009	AGM followed by Sheppy	The Volcanoes of the Auvergne - Are they Extinct?	
08/04/2009	Dr George Darling (BGS)	Isotopes and Earth Systems: Cosmic Connections	●
11/03/2009	Michael Cuming	Oman: a geological treasure chest. A member reports	
11/02/2009	Michael Hammett	"Mind the Gap" - All about Mortar in Brickwork	●
14/01/2009	Dr. Steve Edwards - (UCL)	Geological hazards in Papua New Guinea	●
<b>2008</b>			
10/12/2008	Prof Jim Rose (Royal Holloway)	The Earliest Humans in Northern Europe	●
12/11/2008	Prof. John Cosgrove (Imperial)	Geology of the Zagros Mountains of Iran	
08/10/2008	Dr Michael de Freitas (Imperial College)	Representing public concerns with tunnelling in urban areas; an example from Dublin	●
10/09/2008	James Ford	Historical Brick-making in Reading, and its Implications on Chalk Mining Hazard	
13/08/2008	Treasure Hunt	Ruislip High Street, Church yard and Manor Farm estate.	
09/07/2008	Dr Peter Grindrod (UCL)	Volcanism on Venus	
11/06/2008	Dr Angela Milner (NHM)	Dino-Birds: How dinosaurs became birds	●
14/05/2008	AGM - Followed by Jo Crocker	The Geology of Alaska and the Yukon	●
09/04/2008	Dr Mark Sutton	3D fossils: past, present and future	
12/03/2008	Prof Frances Wall	Ten Volcanoes	
13/02/2008	Dr Bob Symes	Minerals of Northern England – the 15 year old saga	
09/01/2008	Dr Haydon Bailey	The forensic use of microfossils	

2007			
12/12/2007	Geoffrey Larminie	Antarctica – continent for Science?	
14/11/2007	Lorraine Cornish	The work of the Palaeontology Conservation Unit at the Natural History Museum	●
10/10/2007	Dr Ruth Siddall (UCL)	The Geology of Paintings	
12/09/2007	Bryan Cozens	Israel and Jordan	
08/08/2007	Jo Crocker	Building Stones Walk around Pinner.	
11/07/2007	Dr Ian Jarvis	Deep-sea muds in the NE Atlantic: a 20 Myr record of major disasters	
13/06/2007	Dr. Anton Kearsley	Stardust: Minerals and the make-up of a comet	●
09/05/2007	AGM followed by Liz Binney	Galapagos - in the footsteps of Darwin	
11/04/2007	Dr Dave Waltham	Lucky Planet	●
14/03/2007	Dr Paul Craddock	Mining in Antiquity	●
14/02/2007	Dr Dave Lowry	Snowball Earth - a Scottish perspective through the 800-500 million year old Dalradian metasediments	
10/01/2007	Dr Paul Taylor	Fossil Symbioses	
2006			
13/12/2006	Michael Hammett	The historical development of <b>British brick-making</b>	●
08/11/2006	Dr. David Alderton	Mining and pollution in the Balkans	●
11/10/2006	Diana Smith	Flint - a diverse resource	●
13/09/2006	Dr Andrew Ross (NHM)	Fossil Insects of the Benbridge Marls, Isle of Wight	●
10/08/2006	Treasure Hunt	Uxbridge - Note this is on <b>Thursday</b> . Meet outside the station at 6:45pm for a 7:00 prompt start.	
12/07/2006	Prof. Howard Colley	Gold from Volcanoes	●
14/06/2006	Ruth Weinburg (Brent GS)	Geology of the South Island of New Zealand	●
10/05/2006	AGM	Followed by a talk by Mike Cuming about the summer 2005 North of Ireland trip.	●
12/04/2006	Dr. Andrew Shortland	To the Mines of the Pharaohs	●
08/03/2006	Dr. Steve Edwards	Forget global warming and prepare for volcanic cooling	●
08/02/2006	Dr. Chris Halls	The Kaolin Resources of China	●
21/01/2006	New Year Social		
11/01/2006	Dr. Anton Kearsley	Catching and Analysing Micrometeoroids: The Composition and Mineralogy of dust in Space	●
2005			
14/12/2005	Sheppy Shepherd	Journey to the Centre of the Earth	
09/11/2005	Dr. Michael De Freitas	The Engineering Geology of Tunnels	●
12/10/2005	Dr. George Darling	Geothermal Exploration in the East African Rift Valley	●
14/09/2005	Dr. Frances Wall	Carbonate volcanism	●
10/08/2005	Member's Evening	Harrow Treasure Hunt (on foot)	
13/07/2005	Prof. John Clemens	Granites and Granitic Magmas:	●

		Strange Phenomena and Some Recent Perspectives on Old Problems	
08/06/2005	Prof. Richard Selley	Geological and climatic controls on <b>British vineyards</b>	●
11/05/2005	AGM + Bob Maurer	Mining for Rare Minerals in Mexico	●
13/04/2005	Dr. Chris Green	Reconstructing Rivers - pebble counting in the British quaternary	●
09/03/2005	David Lancaster	Diamonds	●
09/02/2005	Dr John Boardman	The Lake District: Landscape Evolution	●
12/01/2005	Dr. Daniela Schmidt	The Ocean Drilling program: a Journey to the South Atlantic	●
<b>2004</b>			
08/12/2004	Dr Geoffrey Larminie	A Geologist in the Arctic	●
10/11/2004	Bryan & Felicity Tabor	The Eysse Valley in Upper Ardeche	●
